To develop a student in broader perspective various programs and activities gives a thought, inculcates skills, develop management tasks, team spirit, stage skills, face challenges and find out a way to solve them. Nevertheless it also assigns the professors to setup targets for students, work for betterment of the society, highlight social issues, work for society, its problems and so on. Our team has to plan, organize, bring together resources, manage funds, direct and supervise the event. As a part of the best practice the core lies in how well seniors think i.e. conceptual thinking and how well it is executed by students. Proficient as teacher we must practice examine and induce students to be knowledgeable. The set curriculum gives them knowledge, social thought make them able to implement it. An able person only can stand and face the world with full strength.
